

## **Personnel Lift Part**

Personnel Lift Parts - The fold down work platform raises personnel to shelving and overhead racks in a very convenient and safe method. When this attachment is not being used, the work platform could be folded down and then kept without problems. It consists of a a long chain, a tine lock, and a checker floor plate platform together with hook so as to attach the platform to the work truck. This platform is made of welded steel and like a lot of other accessories, has the blue powder coat finish for durability.
