

Meritor Part

Meritor Parts - Meritor is a leading international supplier which is proudly established on a one hundred year custom of service and quality. They specialize in a broad range of integrated systems, modules and parts to original machinery manufacturers and the aftermarket for the industrial and transportation sectors.

Meritor values the wishes of their customers to ensure their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their global operations. Meritor begins with a culture that values diversity of people and their broad thought processes. Operating in 19 countries and hiring over eleven thousand two hundred individuals, Meritor encourages innovation and collaboration amongst a team of experienced professionals.

Meritor strongly believes in only hiring future focused staff. These top-caliber individuals could rapidly adapt to changing surroundings and freely exhibit the level of commitment and performance required to attain results for the competitive market environment. The company empowers their teams to make sound business decisions to be able to enhance the overall success of the company. In return, Meritor provides all their staff various opportunities for professional and personal growth.

The Advanced Engineering team is on the forefront of components and system engineering. This includes drivelines, axles, suspension and braking systems designed for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is even responsible for supporting the needs of all their global engineering staff.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities that are located around the globe in 19 countries and in 5 different continents.

They have their supplier network which is specially situated to support the development of the business. Every regional team has globally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making in each and every aspect of the trade. The DFSS or also known as Design for Six Sigma ensures product reliability within every region. The team is also included transactional Green Belts who apply Six Sigma tools to business processes and apply lean techniques.
