

## TCM Forklift Parts

TCM Forklift Parts - In the global industry of material handling, forklifts play a major part for transporting industrial goods. Initially innovated as industrial vehicles in the 1930s in the U.S., forklifts gained popularity after World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these machines spread worldwide.

Initially founded as Toyo Carrier Manufacturing Company Limited, in 1949, the company was later renamed Toyo Umpanki Co. prior to becoming recognized as the TCM Corporation. Established by Mr. N. Niwa manufactured Japan's very first forklift. Throughout the years, TCM lift trucks have become a worldwide leader in forklift manufacturing and have built a solid reputation in the trade. TCM began building lift truck manufacturing sites outside of Japan during the 1980s and is now engaged in forklift manufacturer at three foreign factories in China, the United States and Europe.

With more than 50 years of accumulated expertise and technology, TCM has been proudly manufacturing various models of industrial forklifts, making their models recognizable all around the world. With an energetic and strong workers, TCM has been able to continually work towards becoming a future leading material handling business.
