

Spreader Bar for Forklift

Forklift Spreader Bars - ELME has been proudly operating ever since the year 1974, becoming the biggest independent spreader business all over the world. They are a devoted manufacturer of spreaders meant for a lot of several applications like for instance the handling of containers, swap bodies and trailers.

Engineering is done in house by using all of the latest FEM tools and CAD systems. The ELME company now employs more than one hundred twenty five personnel. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers all-over the globe.

The product series of ELME include numerous spreaders meant for several trailer and container handling operations. A few of their inventory consist of: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers plus a wide array of attachments.

Manufacturing and production of ELME products are developed in highly automated purpose built factory. In the year 2008, they made 1150 spreaders by way of utilizing quality components so as to guarantee reliability and excellent standards. Major features of ELME consist of design simplicity, market response and ground-breaking modular spreader concept.
