

## Clark Forklift Part

Clark Forklift Parts - Performing worldwide, there are at this time 350,000 Clark forklifts and lift vehicles in operation, with in excess of 250,000 of those in use in North America. Clark has five major lines of forklifts across the world, making it one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 exclusive makes of forklifts, with parts covering more than 120,000 particular components for all of its automated equipment. Your local Clark Seller is your complete source for availability of all your components requirements supplied by Clark Totalift.

Clark has a phenomenal Parts Supply team. The parts warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their buyers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Motivated to supply the highest level of value and service to our clients, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Internationally, Clark has one of the most outstanding dealer support networks. With over 550 locations globally, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the materials handling market.

Clark proudly remains an innovative leader of the material handling industry, pioneering safety features such as the operator restraint system. This exceptional commitment to safety is currently a customary feature on every forklift.

Clark has a relentless objective to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its production facilities. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental limitations, thus placing them in a prevailing market position.

Clark has chosen the system of "Lean Production" at all of its assembly facilities for the reason that this system is extremely economical and permits minimal use of resources. Developed to guarantee maximum proficiency, this system is intended to find and acknowledge the most effective methods for manufacturing facility management. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to perfect the proficiency and excellence of their products while minimizing costs. The contemporary value engineering agenda combines modern product growth and provides improved consumer support and service within the industry.
